ABOUT ME

I am passionate about software and hardware. I build web apps with laravel and mobile apps with flutter. I won my first contract to build a digital learning platform at the university. That's all i can say now... hope i can say more in the future!

WORK EXPERIENCE

Kojo Sekyi Darko

Senior level | Laravel Web developer (Head of development team)
Accra , Ghana
2025-01-01 | 2025-10-01

The task was to build a digital learning platform for students. The platform allows students to watch lesson videos, take online quizzes with anti-cheat system checks. I was the head of the development team, bringing other qualified developers on board for the project. It was my responsibility to meet the deadline for the project and ensure everything is done as expected.

JOB SKILLS

Laravel developer | flutter mobile developer
