Objective

Objective

a strong security focus, skilled at designing and

My goal is to combine software engineering with

modern security practices to build scalable applications that can withstand real-world threats

Technical Expertise

Security Skills

Defensive coding strategies, OWASP Top 10 countermeasures.: token-based authentication (JWTIOAuth2) , penetration testing basics, security headers, request throttling, CSRFIXSSlinjection prevention:

Certifications

Certifications

OWASP Web Security Fundamentals (2024)

Development Stack

Frontend: Flutter . React. Tailwind CSS. CSS

Databases: MySQL, MongoDB, Redis (secured TTL-based caching)

DevOps: Docker, Kubernetes, GitLab CIICD

Professional Experience

Accra, Ghana

Software Developer Intern – PENTATECH Solutions | Accra, Ghana | 2024

2024

- Streamlined Git workflow, cutting deployment errors by nearly half_
- Engineered security middleware capable of handling 500+ requestslmin with throttling and validation.
- Integrated automated container security scans into CIICD pipelines
- Maintained 4 repositories with 78 commits and 12 merged pull requests_

Key Projects

Secure E-Learning Platform (ShoutOutGH)

• Built role-based access control with rotating JWT authentication.

• Developed a layered middleware stack including CSRF defenses, input sanitization, rate limiting, and nonce-based CSP headers.

• Applied container hardening checks (Docker Bench, Trivy scans) to enforce compliance.

• Designed and deployed an admin panel for CRUD operations and event monitoring.

• Collaborated with cross-functional teams (UI/UX and backend engineers).

• Git Contribution: 142 commits, 23 PRs, ~89% test coverage.

E-Commerce Security Upgrade

• Strengthened password storage with bcrypt and secured payments to meet PCI-DSS standards.

• Automated OWASP ZAP scanning for vulnerability detection.

• Introduced QR-code-based two-factor authentication for admin operations.

• Implemented AES-256 encryption for customer invoices.

• Git Metrics: 64 commits, 9 PRs with a security-first focus.
